IN RE: Reissue Application of SAMMY K. MASSEY
For: ANIMAL CARCASS INCINERATOR
Pat. No.: 6,397,764
Issue Date: June 4, 2002

PRELIMINARY AMENDMENT IN REISSUE APPLICATION

Pursuant to 37 C.F.R. §1.173(b), please enter the following new claims:

6. An incinerator for burning animal carcasses, comprising:
 - a. an insulated shell including an inner surface and an outer surface, having a first end and a second end;
 - b. a grate, placed horizontally within said insulated shell, so as to divide a space enclosed within said insulated shell into a lower flame chamber and an upper biomass chamber;
 - c. means for introducing said animal carcasses into said upper biomass chamber;
 - d. a burner placed at said first end of said insulated shell and beneath said grate;
 - e. an exhaust stack placed proximate said first end of said insulated shell and positioned so as to vent said upper biomass chamber to a surrounding atmosphere;
and
 - f. a blower, positioned proximate said second end of said insulated shell, and oriented to direct a stream of air downward and toward said first end of said insulated shell.
